| Platform + Database:   | SQL (MySQL), PostgreSQL setup and admin, Amazon Web Services (AWS), WordPress, Visual Studio Code   |
| RESTful & other API:   | Google Maps, NYC OpenData   |
| DevOps:                | Chef, Ansible, Bash scripting, Git, Ubuntu, Debian, Linux, Github/Gitlab/Bitbucket, Docker, Kubernetes  |
| Published Work:        | <a href="#">Deploy Rails BlueBook, 2014</a> <a href="#">Automate PHP Deploys, 2014</a>  |
| Certificates:          | Introduction to MongoDB, MongoDB University, 2017<br>Software as a Service (SaaS), University of California, Berkeley (Edx.org), 2013   |
| Associations / Awards: | <a href="#">LeetCode Oct 17 2019 100% Smallest Memory Usage For All C++ Submissions Accomplishment</a><br>Linux Kernel Contributor<br>Member of SIAM<br>2013 Dean's List / Bobcat Scholarship |

---

## ACCOMPLISHMENTS / PROJECTS

---

- [LeetCode Oct 17 2019 100% Smallest Memory Usage For All C++ Submissions Accomplishment](#) <https://leetcode.com/submissions/detail/270863400/> at the time for Oct 17 2019
- Created a B2B Course Site, [WyattTechCourses.com](http://WyattTechCourses.com), written in Rails and uses Bootstrap/jQuery with enterprise features such as: group purchasing, revoking, auditing, and generate PDF certificates (Prawn). Videos are provided by Carrierwave with AWS; email is provided by ActiveMailer with SendGrid.
- Wrote a dotfile manager in Chef to manage packages, hostfiles, custom commands using Chef templates and package management tools. ([https://gitlab.com/jbwyatt4/chef\\_dotfile\\_manager\\_tutorial](https://gitlab.com/jbwyatt4/chef_dotfile_manager_tutorial)).
- Wrote a frontend for YCombinator's Hacker News in React with Create-React-App. (<https://gitlab.com/jbwyatt4/hackernews>).
- Wrote a [Small Business Order System](#) in Ruby on Rails + Twitter Bootstrap + PostgreSQL Hosted on Heroku.
- Published, [Deploy Rails BlueBook](#), a book on the manual and automated deployment of Linux Rails servers with Chef on Ubuntu Linux.
- Published [Automate PHP Deploys](#), a companion book on the manual and automated deployment of WordPress PHP servers.

---

## EXPERIENCE

---

Outreachy Initial Intern

02/2020 – 05/2020

# John B. Wyatt IV

- Worked with [Julia Lawall](#), [Stefano Brivio](#), and [Greg Kroah-Hartman](#) to improve and prepare Linux drivers in the Linux staging-testing tree for inclusion in the mainline Linux kernel.
- Contributed documentation to the [Ceph](#) project.

## President/Lead Programmer, Wyatt Tech Courses

05/2015 – 02/2020

- Developed and maintained an enterprise course platform in *Rails* with *AWS*, *Digital Ocean*, and *PostgreSQL*.
- Used *Stripe* for a digital payments integration with the platform
- *jQuery* and *Bootstrap* was used for the front end
- Wrote a *Chef DevOps* script to complete automated setting up and updating the course platform.
- Scripted, recorded, and edited a full course on server automation.
- Registered with government entities for contracting and government purchasing.
- Wrote copy and marketed my course and website to businesses/governments.

## Application Developer I, Los Angeles County

11/2014 – 05/2015

- Designed and developed a mobile application prototype in the *Android Eclipse* platform intended for Accessors to take into the field on an Android tablet.
- Worked with a team of contractors for a *Linux, Java, PHP, and MySQL* property estimation tool. Estimations were calculated using *Machine Learning Regressions* and *GIS* was used to visually map the values.
- – *Cut processing time down from days to hours* for a single tax district of Los Angeles County (over 80+).
- – Allowed the Accessor's department to *move away from an old Cobol system* to a modern Linux-Java system.
- Developed an internal tool (plugin) that integrates into the popular website platform *WordPress* for the Accessor's department. The *Angular JavaScript* framework was used to provide interactive functionality that fetched data from a public API.
- – *Saved the Accessor's department money* by automating a task it previously paid an outside team to do every time it had to change a part of their website.
- Gained experience working with California government processes and legal requirements, including property tax law.

## Student Researcher, University of California, Merced

01/2013 – 07/2013

- Researched cloud computing and virtualization.
- Studied research papers and articles on cloud computing including Google File System, Google BigTable, Eucalyptus, and Apache Hadoop.
- Wrote an undergrad survey paper on virtualization implementations that compared Linux Cgroups, BSD Jails, Solaris Zones, VMWare, Xen, and VirtualBox.
- Gained experienced working in a graduate student lab and developing plans in meetings.
